

Fall 2021 AICP Exam Prep Course & Study Group

Friday 9:00am-12:00pm
August 27 & September 10
Weekly Study Group Dates & Time TBD

Are you planning to take the AICP exam?

This two day workshop will concentrate on the structure and make-up of the exam. The goal of the workshop is to provide a thorough overview of the exam and to help candidates become aware of the format and organizing principle of test questions while providing strong, focused direction for individual preparation and group study. A new component of the course is a weekly study group.

Course Notes

The course and study group will take place virtually. Instruction is led by a Professor from the Clemson Planning Department and Planning Professionals. Since the course is virtual, some content may be prerecorded so that you can view on your own and to break up the screen time a bit. We hope that you will join us and actively participate in the course and study sessions by asking questions and contributing to the discussions.

AICP EXAM- Subject Matter

- 25% Fundamental Planning Knowledge
- 30% Plan Making and Implementation
- 30% Areas of Practice
 - 5% Leadership, Administration & Management
- 10% AICP Code of Ethics and Professional Conduct
